# ASSEMBLY AND FINISHING

1 Place your front and back panels on top of each other, with the wrong sides touching.

2 Thread your sewing needle with a length of yarn. Starting at the outside edges, use the horizontal invisible seam technique to sew up one of the shoulder seams for 8''. Then sew the other shoulder side using same method.

3. With the right sides facing up, line your sleeves up with the sewn-together body of your sweater, so that the centre of the cast off edge on the sleeve meets the shoulder seam. Use the perpendicular invisible seam technique to attach the sleeves to the body.

4. With the right side facing outwards, fold your sweater along the shoulders and sleeves. Starting at the bottom hem, use the vertical invisible seam technique to sew the side edges together all the way up to the underarm. Then start again at the sleeve hem, and sew the sleeve edges in the same way. Repeat for the other side.
